

Ready for risk

Health & Safety Services

Stay up to date with the latest legislation, and keep your workplace safe

Our Health & Safety Services have a dedicated area on the NIG Risk Assist portal. It's designed to help you navigate through, and keep up with, all your health and safety responsibilities.

Why use our Health & Safety Services?

Since 2014, fines for health and safety breaches have increased by more than 200%, and in 2018, poor health and safety cost 144 lives and £72.6 million to UK companies.* Changes to health and safety legislation are placing an ever-increasing burden on business owners. If you're to keep up with your legal responsibilities, prevent accidents, and avoid hefty fines, planning for effective health and safety management is vital. This is where our Health & Safety Services can help.

The key features

- Fully accredited suite of health and safety e-learning modules available to all your staff, whatever the size your organisation.
- A wealth of downloadable information and templates for policies, risk assessments, checklists, contracts and other documents.
- Secure, cloud-based document manager stores all your documents and useful information in one easy-to-navigate place.
- Relevant news and legislation updates, flagged throughout the year.
- Unlimited access to our 'Ask the Expert' service – guaranteed response within 24 hours.
- A-Z guidance including sector-specific areas to deal with the complexities of your particular industry.
