

Managing Driving Risk

Our Managing Driving Risk system helps fleet managers and businesses tackle Occupational Road Risk (ORR). It provides a bespoke set of remedial actions to ensure legal compliance, and allows drivers to complete and upload individual audits which you can monitor centrally.

Helping fleet managers and businesses manage Occupational Road Risk

Why use Managing Driving Risk?

Driving at work continues to be a significant safety issue for UK industry, with significant numbers of road traffic incidents attributed to those driving as part of their work. To tackle this issue, the Government has introduced Corporate Manslaughter legislation. And with various police initiatives and existing Government legislation, employers simply can't afford to ignore occupational road-risk issues. Directors and Senior Managers who fail to adequately manage their 'duty of care' for employees that drive, face large fines or even prison.

The key features

- A range of tools, guides, checklists and templates to help manage the daily risks to drivers, organisations and the rest of the public.
- Our Driving at Work content library covers a wide range of topics to keep staff up to date and in the know on aspects of safe driving.
- Audit identifies where road and vehicle safety procedures are now and where they need to be. Plus, an action plan for how to get there and what to do next.
- Regular updates on changing ORR legislation, to keep procedures up to date.
- Store plans and useful documents in one organised and secure cloud-based storage facility, creating a clear audit trail.

The key benefits of Managing Driving Risk

- Ensure Directors and Senior Managers comply with their 'duty of care' for employees who drive while at work.
- Assesses the risks from work-related road safety in organisations.
- Create a health and safety policy that covers, for example, organising journeys, driver training, and vehicle maintenance.
- Clearly sets out roles and responsibilities for work-related road safety.
- Looks beyond the obvious risks – such as MOT certificates and drivers holding a valid licence – to ensure the safety of employees when they're on the road.
- Reduces the risk of driving-related injuries and ill health among employees.
- Encourages employees to report all workrelated road incidents or near misses.
