

NIG. Here's why...

**...we're forward-
thinking innovators.**

We're here to help you win new business. What's more, we want to help you retain it year after year after year. That's why we're investing continually in technology, including our eTrading platform (TheHub) and our software house solutions and always looking for new ways we can use technology to help our brokers grow.

We're No.1 for eTrade

With an ever-expanding range of eProducts, our full-cycle eTrading platform – TheHub – allows you to get quotes, buy policies, make MTAs, manage renewals, and take care of all the paperwork online, simply and quickly. This is one of the reasons we were voted top performing insurer for the second year running in **Broker eTrading in the 2016 Insurance Times eTrade Broker Insight Survey.**

Voted No.1 for eTrade in the Insurance Times e-Trading Broker Insight Survey 2015 and 2016

eDocs

We've listened to feedback from our brokers and, in 2016, we've changed our way of doing business. We're doing away with paper docs and instead we're sending out electronic documentation. eDocs will enable you to:

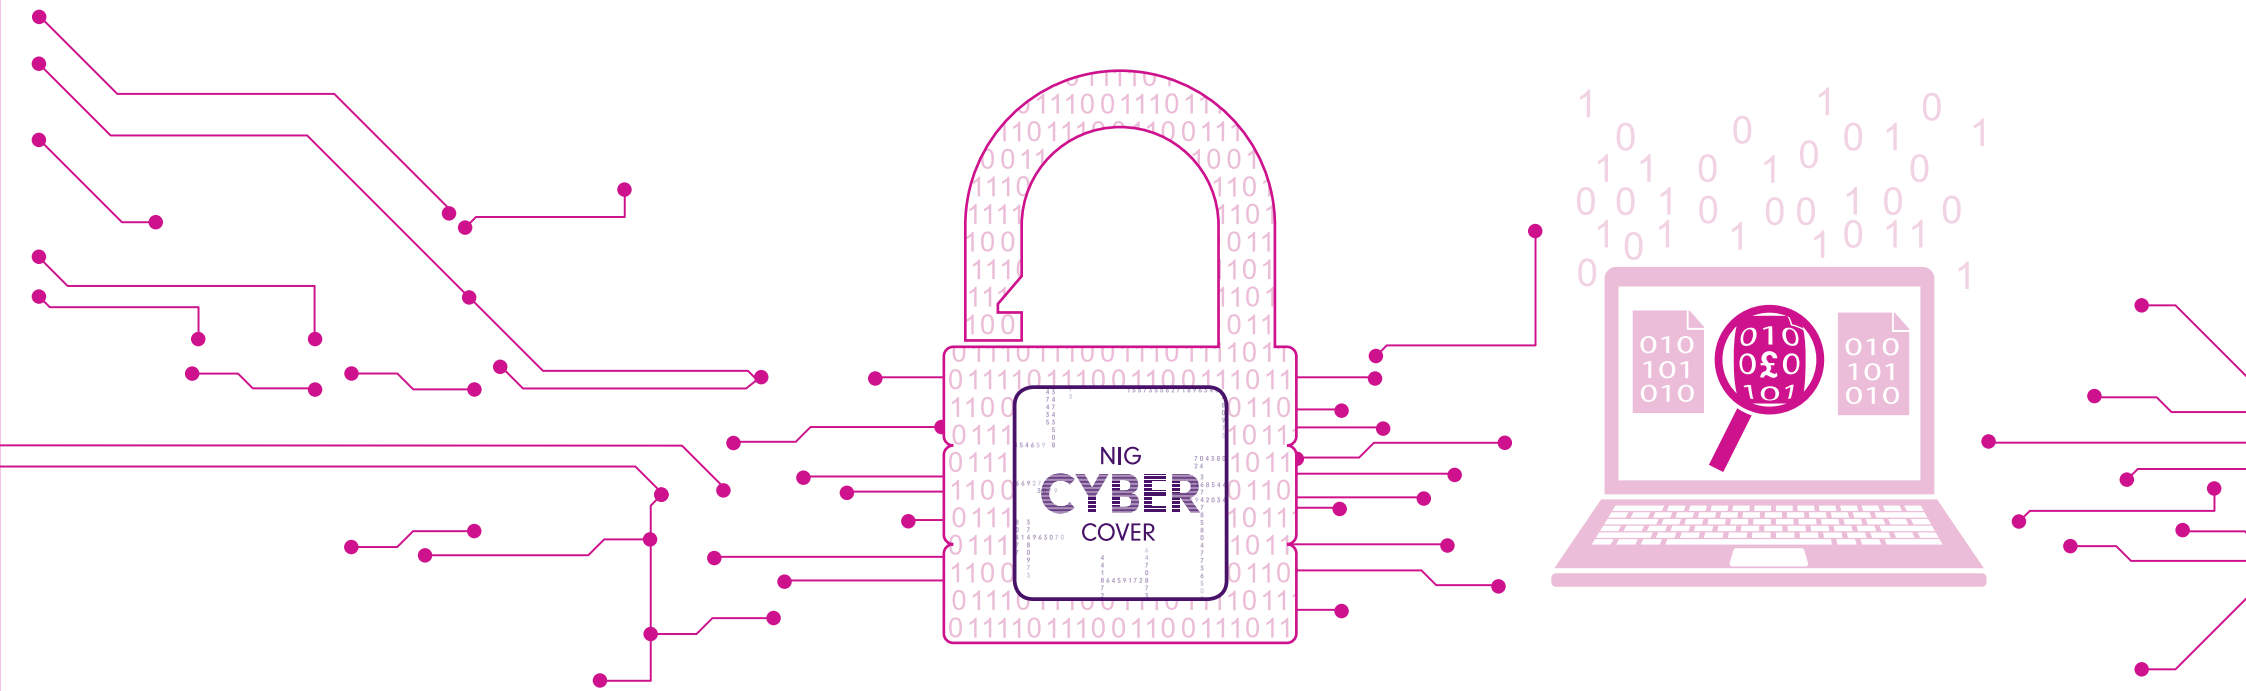

Reduce your carbon footprint and save trees

Save time and money spent on sending paper documents to clients

Offer your clients the choice of paper or electronic documents

Keeping one step ahead

Cyber crime is a growing threat. In response, we created our pioneering NIG Cyber Cover to protect against first and third-party risks, including cyber crime, cyber liability and data breach expense.

NIG FleetManager

Combines a smartphone app with online reporting to help SMEs manage their fleets more effectively, efficiently and safely. This complimentary service improves operations through:

Monitoring driver performance

Premium rebates for good driving behaviour

Better journey management

Fleet efficiency

Cutting-edge claims management

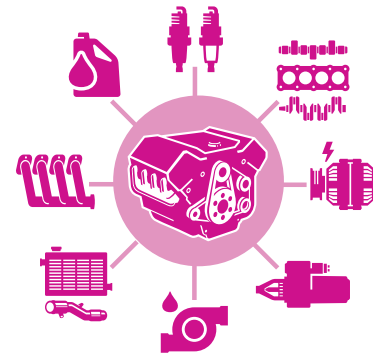

As well as using specialist storm surveyors to validate storm damage, we also use cutting-edge technology to improve our claims process.

Stormscoper –
use of experienced storm
surveyors to validate
storm claims.

With You in Five (WYiF) –
smart software that improves our efficiency
by helping to reduce claim settlement lead
times and allows our claims team to access
information remotely.

Motor Repair Network/Active Web –
online tracking of vehicle repairs,
with text updates to customers.

NIG. Here's why...

...you can trust us with your business.

...we're easy to trade with.

...our products give you an edge.

...we're forward-thinking innovators.
