

Ready for risk

Ask the Expert

Specialist Health and Safety and HR advice when you need it most

Email access to a specialist panel of Health and Safety and Human Resources professionals. On hand during the working week, they'll answer your questions within 24 hours (Mon - Fri), no matter how unique.

Why use Ask the Expert?

Not every business has the resources to employ health and safety or human resources specialists in-house, but with Ask the Expert you can receive advice from qualified professionals. Everything from PAT testing to managing difficult employees, our panel has years of cross-industry experience you can tap into to help you solve the challenges you face.

Examples of questions

- What are the legal requirements for protective clothing for forklift truck operators?
- What are our employees' rights, and our duties as an employer, regarding quarantining?
- Do 3-phase machines need to undergo PAT Testing?
- If staff drive their own cars for work purposes, do we need to keep photocopies of their insurance policy, driving licence, MOT and road tax documents?
- If a colleague refuses help for a mental health issue, what can we do to support their health, safety and wellbeing?

Key benefits

- Unlimited online access to Health and Safety and HR professionals.
- Ask as many questions as you want, as often as you want, in as much detail as you want.
- Guaranteed 24-hour email response Monday to Friday – so that you can deal with issues quickly and efficiently.
- Support and advice is tailored to the issues facing your business.
- Save on expensive consultancy fees associated with health and safety and HR advice.
- Use Ask the Expert as a first port of call, before calling in consultants or other specialist advice.
- Secure online storage of your questions and answers ensures discretion of potentially sensitive communications.
